

BISHTON COMMUNITY COUNCIL

CYNGOR CYMUNED TRESEFGOB

Reopening Bishton Community Council Facilities - [update](#).

As part of the ongoing Welsh Government roadmap for relaxing COVID 19 lockdown procedures **dated 31st July 2020**, Councils can reopen their Village Halls & Community Centres *for essential voluntary activities and urgent public services only* - provided social distancing & other advice is adhered to.

BISHTON COMMUNITY COUNCIL continues to work on a policy for re-opening of Bishton Village Hall and Underwood Community Centre for community use that will ensure our staff and customers remain safe by introducing measures to prevent the potential spread of the virus.

As a part of our preparations we will produce advice for customers, create hand sanitiser points and mark floor areas to indicate how social distancing can be maintained.

Once the Welsh Government allow and we are confident we have all appropriate measures in place to enable a safe re-opening of our facilities we will make a further announcement.

*Please note that the sports ground changing rooms and toilets will remain closed until we judge it is safe for them to reopen.
